

QUICK SELECTION GUIDE

To make AC relay or contactor selection fast and easy use the table on the following pages. Start in the left column and match the ratings against your requirements as you move to the right side of the table. The last three columns provide a Catalog Number, Page and Section. Reference the Page and Section for more information on your selection.

To use this table to identify part number selection(s): scroll down list to locate the required specification for each attribute.

1) Locate the Amp Rating and Contact Voltage required.

2) Pick the Coil Volts.

3) Select the Pole Form.

4) Identify Part Number and locate the Page and Section for more product information.
